Creative Europe is the European Union’s programme to support the cultural, creative and audiovisual sectors. From 2014-2020, the EU is investing €1.46 billion in the creative industries through one unified programme, Creative Europe, which replaces the two previous Culture and MEDIA programmes. Creative Europe supports European projects with the potential to travel and find audiences beyond their national borders. Launched in 2014, Creative Europe brings together a Culture sub-programme, which provides funding for the cultural and creative sectors, and a MEDIA sub-programme, which invests in cinema, television, new media and games. Match funding is required by participating organisations.

In each country that takes part in Creative Europe, there is an information and promotion office which supports potential and current stakeholders with their applications. The team members of Creative Europe Desk UK are based across the UK, in London, Manchester, Glasgow, Cardiff and Belfast.
Creative Europe Desk UK is led in the UK by the British Council and the British Film Institute, in partnership with Arts Council England, Creative Scotland, Welsh Government and Arts Council of Northern Ireland, and with support from the UK Department for Culture, Media and Sport and the European Commission.
